

Power of Attorney Matters

Lasting Power of Attorney

Having lasting power of attorney (LPA) in place, will give us the right by law, to make health and /or financial decisions on behalf of another adult we are supporting (perhaps our partner or parents), when they're no longer able to do so themselves.

A LPA may sound scary, but it's one of the simplest legal documents to put in place. Saving us a huge amount of turmoil and worry, when the time sadly comes to use it. This webinar breaks through the legal jargon and helps to address the practical and emotional issues surrounding the topic.

It is never too early to consider this topic, in fact the sooner the better.

Session Outline

- What is a LPA?
- Do I need it - what difference will it make? (including case studies)
- How can a LPA be set up?
- What if a LPA can't be set up?
- Emotional barriers and tricky conversations
- What other support is available if I am thinking about how I support others in the future?
- Your next steps

Session Includes

- An informative and engaging workshop style
- A chance to share your experience, circumstances and questions
- The opportunity to consider your own situation and plan your own next steps

Speaker: Suzanne Bourne

Suzanne is an ICF Certified Coach and Co-founder and Head of Carer Support for an online service that provides digital resources, a peer support community and coaching for those who are caring for someone. Setting up and using LPA is often a key part of the caring experience. Suzanne shares her own lived experience with LPA whilst caring for her husband Matt diagnosed with Young Onset Parkinson's 19 years ago and supporting parents and in-laws with sudden changes in health and planning for the future. She also draws on the knowledge, wisdom and experience of a community of thousands of carers.
